

# Digital Arrest

Scammers pose as senior police officers or investigation agency officials and threaten victims that a parcel carrying drugs was booked in an international courier agency using their Aadhaar or PAN card.

## Precautions you should follow

01

### Stay Calm and Verify

Do not panic. Scammers often use fear tactics. Calmly verify the identity of the caller by contacting the official police department or investigation agency directly.

02

### Do Not Share Personal Information

Never share sensitive personal details like Aadhaar or PAN card numbers over the phone, especially if the caller threatens you.

03

### Avoid Immediate Payments

Do not make any payments or transfer money based on threats or demands. Legitimate authorities will never ask for payments over the phone.

04

### Report the Incident

If you receive such a call, report it to the local police and your bank to ensure your information remains secure.
